Reduce Recycle

Many of us have heard the phrase "reduce, reuse, recycle." Yet too often, we skip the "reuse" portion. Wasting things creates—you guessed it—waste. Your challenge is to find five items that are quickly thrown away or placed into the recycling bin in your home. Think of a new use for each item. How can the item be utilized again before it leaves your home? How can using the item in this new way save money?

Item	New Use	Savings
