

# MY BOOK ABOUT BIOMES

Name:

Date:

Class:

What is a biome?

Two types:  
Terrestrial biomes + Aquatic biomes

What is a terrestrial biome?

What is an aquatic biome?

# Examples of Biomes

coral reef  
deciduous forest  
desert  
grassland  
large lake  
oceanic island

river delta  
taiga (coniferous forest)  
temperate  
tropical rainforest  
tundra

Place each biome in the correct column,  
terrestrial or aquatic.

| Terrestrial Biomes | Aquatic Biomes |
|--------------------|----------------|
|                    |                |

How can changes in environmental conditions affect the survival of a species?

Research an animal or a plant that is currently endangered, or that already became extinct, due to changing environmental conditions. Tell the animal or plant's story here.
