Name:

Bags and Bags of Money

Directions: Look at the bags of money. There are ____ bags of money total. The bags are divided into rows of five, to make them easier to count.

Imagine that someone takes four (4) of the bags. How many would there be left? Let's write this as an equation: 20 – 4 = ____

Now, imagine that, instead of taking four (4) bags, someone took eight (8) bags. Write this as an equation.
