

## 6.3 Climatic Changes – Outline

- I. Earth's Seasons
  - a. Seasonal Changes
  - b. High Latitudes
- II. El Nino and La Nina
- III. Climatic Change
- IV. What Causes Climatic Change?
  - a. Atmospheric Solids and Liquids
  - b. Energy from the Sun
  - c. Earth Movements
  - d. Amount of Solar Energy
  - e. Crustal Plate Movement
- V. Climatic Changes Today
- VI. Global Warming
- VII. Human Activities
  - a. Burning Fossil Fuels
  - b. Deforestation
- VIII. The Carbon Cycle
