OCTOBER 5

MR. RZYKRUSKI'S SCIENCE CLASS

Join Victor and his classmates in completing these fun and safe science experiments by following three easy steps! Write your responses in the space provided. Kids, make sure to have a parent help set up and make sure you have everything you need.

Step 1: Hypothesis – Read the instructions.
What do you think will happen?

Step 2: Test
Perform the experiment!

Step 3: Observe
What actually happened? Did you get the result you expected?

EXPERIMENT #2: "MONSTER OOZE"

You will need:

- Cornstarch (one 16 oz. box per 2-3 scientists)
- Water
- Green food coloring
- A large mixing bowl

Instructions:

1. Pour cornstarch into the mixing bowl.
2. Add a few drops of green food coloring to the water (approx. ½ cup of water for each 1 cup of cornstarch used).
3. Slowly add water and mix until the substance is uniform.
4. The Monster Ooze is ready – use your hands to interact with it and explore!
5. Don't forget to clean up when you're finished.

Hypothesis: _____

Test: _____

Observe: _____
